Summary

The [Proposals Dashboard](#) is a summary dashboard about outgoing sponsored proposals:

- How many proposals are submitted in the selected date range?
- What is the dollar amount of outgoing proposals?
- Which schools are submitting proposals?
- Which sponsors is Harvard submitting to?
- How does a given time period's activity compare to the prior year?

i As of April 2026, results are updated. Each full, competing proposal submission in GMAS is counted individually. This includes resubmissions of previously submitted but unfunded proposals, as these are typically discrete, full proposal submissions that require a similar level of effort as an original submission.

Navigation

At the top of left each dashboard page are breadcrumbs that allow you to return the Research Administration and Compliance Reporting landing page.

Prompts

Proposal submissions for	March ▾	2023 ▾	School (All Column Values) ▾	Org (All Column Values) ▾	Sponsor (All Column Values) ▾	Direct or pass-through (All Column Values) ▾
--------------------------	---------	--------	---------------------------------	------------------------------	----------------------------------	---

For all dashboard pages, all date prompts in the top header affect all other sections of the same dashboard page.

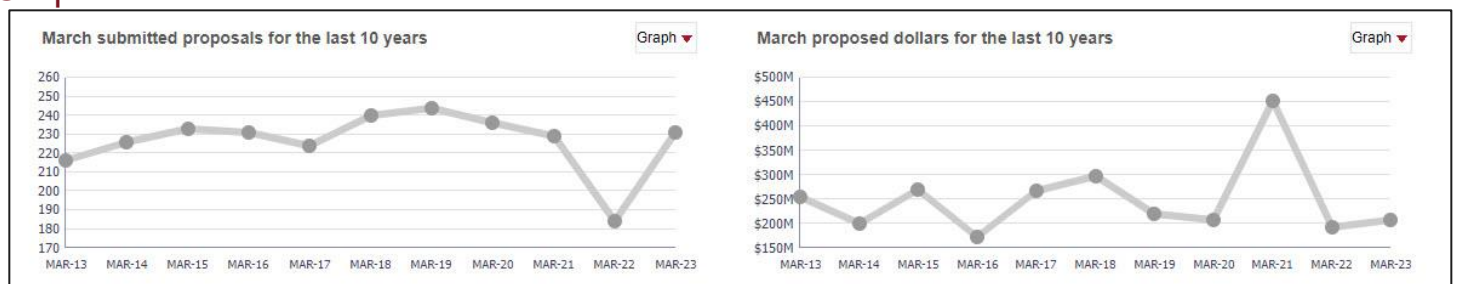

- In the case of Proposals by month
 - The month always defaults as the prior calendar month.
 - Only one month/year combination can be picked at a time.
- In the case of Proposals by fiscal quarter
 - The quarter always defaults as the prior fiscal quarter.
 - Only one quarter/fiscal year can be picked at a time.
- In the case of Proposals by fiscal year
 - The fiscal year always defaults as the prior fiscal year.
 - Only one fiscal year can be picked at a time.
- In the case of Proposals current fiscal year to date
 - The current fiscal year to date range always starts with July of the current fiscal year.
 - The current fiscal year to date range always ends with the prior month.
 - The current fiscal year to date range cannot be changed.
- For all pages, multiple school, org, or sponsor groupings can be selected.
 - Selecting a school will narrow the orgs in the dropdown to the selected school.
 - There is also the option to view information about one or both direct (where Harvard is or is expected to be the 'direct' recipient of funds) or pass-through (where Harvard is or is expected to be engaged in a subcontract for funds to 'pass-through' to a subrecipient organization). These selections will apply to all dashboard pages.

Summary view

Submitted proposals	Proposed dollars
230	\$209M
+26% change from March 2022	+10% change from March 2022

The summary view shows the total submissions and proposed dollars for the selected time period, as well as the percent change from the same time period of the prior year. If the school, org, or sponsor prompts are used, the summary view will update accordingly.

Graphs

The graphs display the total number of submissions (left) and proposed dollars (right) for the selected time period, compared to the same time period over the last ten years. Additionally, the graphs can be toggled to

a table view of the underlying data. If the school, org, or sponsor prompts are used, the graphs will update accordingly.

Submissions by School/Org

This section can be viewed by school (default) or org by changing the dropdown in the table's title bar. The table shows the submission numbers and proposed dollars rolled up by owning school (see below for school groupings), or owning org. The corresponding total of proposed dollars for each school/org is a link that will open a new tab to show the detailed list of individual submissions comprising the total. If the school, org, or sponsor prompts are used, the table will update accordingly.

Please note that if an org did not have submissions for the time period selected, or that same period a year ago, it will not show in the list of orgs.

Submissions by Sponsor

Submissions by sponsor						
Federal Sponsor	March 2023				March 2022	
	Submissions	% change	Proposed \$	% change	Submissions	Proposed \$
NIH	20	14%	\$23,055,775	-26%	21	\$32,121,089
NSF	2		\$244,000			
Other DHHS	2		\$1,756,797			
Other Federal Sponsors	1	10%	\$40,000	100%	1	\$271,000
Grand Total	25	14%	\$23,855,575	-26%	22	\$32,382,652
Non-Federal Sponsor	March 2023				March 2022	
	Submissions	% change	Proposed \$	% change	Submissions	Proposed \$
Foreign Foundation/Nonprofit	1	100%	\$400,000	100%	1	\$165,000
Foreign Government					1	\$67,000
Foreign University					1	\$165,750
Multi-national Organization					1	\$40,000
US Foundation/Nonprofit	10	10%	\$1,250,000	100%	11	\$1,250,000
US Hospital	1		\$40,000			
US Industry/For-profit	2	100%	\$750,000	100%	2	\$1,140,000
US Research Institute	2		\$150,000			
US University	1		\$21,000			
Grand Total	18	-22%	\$3,400,854	-61%	23	\$8,820,089

This section shows the submission numbers and proposed dollars rolled up by ultimate sponsor (see below for sponsor groupings). The corresponding total of proposed dollars for each sponsor is a link that will open a new tab to show the detailed list of individual submissions. If the school, org, or sponsor prompts are used, the table will update accordingly.

Detail view

All links from the summary page open the a detail view on the GMAS Requests lookup dashboard, showing each individual submission that adds up to the total clicked on the summary page. Additional prompts and columns along the left side of the page allow continued filtering of the details presented in this view. Provided that you have access to the segment in GMAS, the project number is a direct link to the initial proposal's request home page in GMAS

Security

All Grants Management users have access to this dashboard and will see the same data on the summary page. All Grants Management users will also be able to access the detail view, however, the "Project" column will only contain a link if the logged in user has access to the corresponding segment in GMAS

Data definitions

Billing agreements in GMAS are excluded from this dashboard (any projects in GMAS that have either the **research type** or **funding instrument** set to "Billing agreement")

Proposal

This is the proposal sent to the sponsor. Each full, competing proposal submission in GMAS is counted individually. This includes resubmissions of previously submitted but unfunded proposals, as these are

typically discrete, full proposal submissions that require a similar level of effort as an original submission.

Sponsor

On the summary dashboard page, the sponsor always refers to the **ultimate** sponsor – which is the prime sponsor if it exists, otherwise the direct sponsor. On the detail page, both direct and prime sponsor are shown.

School rollups

- FAS: Tubs 110, 115, 310, 340, 355, 370, 385, and 400
- GSE: Tub 255
- HKS: Tubs 205 and 215
- HLS: Tub 265
- HMS: Tub 520
- HMS Other: Tubs 490, 505, 510, 515, 535, 565, and 570
- HSDM: Tub 550
- SCRB: Tub 420
- SEAS: Tub 325
- SPH: Tub 275
- WYSS: Tub 635
- Other: All other Tubs

Sponsor rollups

For non-Federal sponsors, the groupings are based on sponsor type (as set and shown in GMAS as **organization type** on the organization home page).

For US Federal Sponsors, an additional grouping is in place for the following sponsors:

- Department of Defense
- Department of Energy
- NIH
- NSF
- Other DHHS
- Other Federal Sponsors

This grouping is set and shown in GMAS as the **Standard federal reporting group** on the organization home page.
